

Data Privacy (GDPR)

Cargorange AB is committed to protecting personal data and ensuring that organisational and technical security measures are in place.

We have established data protection rules to ensure consistent and safe protection of personal data when we are processing it. The rules include measures to ensure that the personal data is protected against unauthorised use and publication and that data security and confidentiality is guaranteed – all in compliance with the new General Data Protection Regulation (GDPR) issued by the EU.

INTERNAL INITIATIVES TO SECURE GDPR COMPLIANCE

To guarantee compliance with the GDPR, we have launched initiatives across the organisation and put together guidelines for the employees to follow. The guidelines will make sure data is handled with due care and diligence within the company.

PROCEDURE FOR PROCESSING PERSONAL DATA

If customers provide Cargorange AB with personal data classified as sensitive, we will always process it as required by law.

The personal data will be deleted as soon as it may no longer be retained according to the Cargorange AB guidelines or legislation

TRANSFERRING PERSONAL DATA

Because we operate globally, we sometimes transfer personal data to other companies. Any third party will be required to process personal data in accordance with GDPR and to keep the data protected.
